Federal Supply Service

Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu-driven database system. The INTERNET address for GSA Advantage!® is: GSAAdvantage.gov.

Multiple Award Schedule

FSC Group: Professional Services
FSC Class:

Contract Number: GS-00F-262GA

Contract Period: July 12, 2022 – July 11, 2027

Contractor Name: **Computercraft Corporation**

Address: 1017 12th St NW Ste 200
Washington, DC 20005

Phone Number: (571) 266-3362

Fax Number: (571) 266-3374

Website: www.computercraft-usa.com

Contract Administrator: Carolyn Hill E-mail: chill@computercraft-usa.com

Business Size: Women-Owned Small Business (WOSB)

For more information on ordering from Federal Supply Schedules,
go to the GSA Schedules page at GSA.gov.

Price list current as of Modification #PS-0020 effective November 9, 2022

Prices shown herein are Net (discount deducted)

Customer Information

- 1a. Table of Awarded Special Item Numbers with appropriate cross-reference to page numbers:**

SIN	SIN Description	Labor Category Description Page	Awarded Price Page
541420/RC	Engineering System Design and Integration Services	6-13	14-15
541330ENG/RC	Engineering Services	6-13	14-15
541715/RC	Engineering Research and Development and Strategic Planning	6-13	14-15
541611/RC	Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services	16 – 21	22 – 23
611430/RC	Professional and Management Development Training	16 – 21	22 – 23
OLM/RC	Order-Level Materials (OLM)	Defined at Order Level	Defined at Order Level

- 1b.** Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Please refer to pages 14-15 and 22-23

- 1c.** If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. Please refer to pages 6-13 and 16-21

2.

Maximum Order: SIN	Maximum Order
541420/RC	\$1,000,000
541330ENG/RC	
541715/RC	
541611/RC	
611430/RC	
OLM/RC	\$250,000

3. **Minimum Order:** \$100

4. **Geographic Coverage:** Domestic Delivery Only

5. **Point of production:** Computercraft Corporation 1017 12th St NW Ste 200 Washington, DC 20005

6. **Discount from list prices or statement of net price:** Prices Shown Herein are Net (discount deducted).

7. **Quantity discounts:** None

8. **Prompt payment terms:** Net 30. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. **Foreign items:** None

10a. **Time of Delivery:** Determined by individual task order

10b. **Expedited Delivery:** Contact contractor

10c. **Overnight and 2-day delivery:** Contact Contractor

10d. **Urgent Requirements:** Please note the urgent requirements clause of this contract and contact contractor.

11. **F.O.B Points:** Destination

12a. **Ordering Address:** Computercraft Corporation
1017 12th St NW Ste 200
Washington, DC 20005

12b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. **Payment address:** Computercraft Corporation
1017 12th St NW Ste 200
Washington, DC 20005

14. **Warranty provision:** N/A

15. **Export Packing Charges:** N/A

16. **Terms and conditions of rental, maintenance, and repair:** N/A

17. **Terms and conditions of installation:** N/A

18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices:** N/A

18b. **Terms and conditions for any other services:** N/A

19. **List of service and distribution points:** N/A

20. **List of participating dealers:** N/A

21. **Preventive maintenance:** N/A

22a. **Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants):** N/A

22b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at: www.Section508.gov/ - N/A**

23. **Unique Entity Identifier (UEI) number:** GBLLLPBNSM55

24. **Notification regarding registration in System for Award Management (SAM) database:** Computercraft Corporation is registered and active in SAM

Overview of Computercraft Corporation

Computercraft Corporation specializes in providing technical and management services and customized products at competitive prices. The firm was founded in 1981 and has provided state-of-the-art professional engineering services, particularly in the field of biotechnology and genetics research, since its inception. Computercraft is a Women-Owned Small Business (WOSB), Native American-owned and managed firm. We base our success on the use of advanced technology, the expertise of our staff, and our skills in understanding and surpassing client expectations.

Since 1991, we have been providing onsite molecular biologists to the National Library of Medicine's National Center for Biotechnology Information (NCBI) to provide scientific data analysis and quality assurance for GenBank, the world's largest genetic database. Under this GSA contract, we are offering similar services to assist other agencies in the development and maintenance of genetic and related bioinformatics databases.

Computercraft's sales and service approach begins and ends with your satisfaction as our customer. Our experience has proven to us that to be successful we need to adhere to the following business principles:

- Understand your mission and create a program organization focused exclusively on your needs.
- Support you with the proper technical resources precisely when you need them.
- Pro-actively seek out your requirements on an ongoing basis and make sure that our product offerings provide the most current price performance.
- Improve our quality by continuously improving the order/delivery/acceptance process.
- Foster customer/Computercraft communication and give you easy access to Computercraft decision-makers.
- Act with integrity in every interaction by every Computercraft employee.

Labor Category Descriptions

SINs 541420, 541715, & 541330ENG

Substitutions Methodology:

- A Master’s Degree +5 years of experience equal a PhD.
- A Bachelor’s Degree +5 years of experience equal a Master’s Degree.
- An Associate’s Degree +6 years of experience equal a Bachelor’s Degree.
- Equivalent technical training and/or experience may be substituted for education using the relationship of one year of training and/or experience for each year of education, applicable to categories with *.

Program Executive	
Minimum Experience:	Fifteen (15) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides executive experience and guidance to an engagement and has technical or functional expertise/authority on major firm methodologies. Makes recommendations and advises on system improvements, optimizations or maintenance efforts. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line and has organizational responsibility for client service delivery and performance.

Program Manager I	
Minimum Experience:	Ten (10) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides executive experience and guidance to an engagement including managing a team of individuals. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line, and has organizational responsibility for client service delivery and performance.

Program Manager II	
Minimum Experience:	Seven (7) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline
Functional Requirements:	Provides executive experience and guidance to an engagement. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line.

Project Manager I	
Minimum Experience:	Seven (7) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel. Provides creative/technical guidance for accomplishing assigned tasks. Assures that project personnel deliver the customer's desired technical solution within the mutually established contract schedule and cost. Experience in managing project performance from inception to deployment.

Project Manager II	
Minimum Experience:	Five (5) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel. Provides creative/technical guidance for accomplishing assigned tasks. Assures that project personnel deliver the customer's desired technical solution within the mutually established contract schedule and cost.

Project Manager III	
Minimum Experience:	Three (3) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel.

*Program Assistant	
Minimum Experience:	Three (3) years
Minimum Education:	BA/BS
Functional Requirements:	Manages overall administrative support process for proposal preparation, progress reporting, meeting preparation, conferences and other events. Assist program/project manager in interaction with external customers and project members, tracking costs, monitoring budgets, placing purchase orders, collecting invoices, managing workshops, meetings, travel, and event logistics as required. Manages overall communications and reporting processes. Acts on behalf of program/ project manager as assigned. Work experience in industry, government, or academic organization.

*Administrative Assistant**	
Minimum Experience:	Zero (0) years
Minimum Education:	BS/BA
Functional Requirements:	Schedules appointments gives information to callers, tracks correspondence and documents, files, and provides word processing support, telephone coverage, copying, data entry and general office assistance. Aid managers in the completion of meetings, conferences and other events.

Bioinformatics Analyst I	
Minimum Experience:	Four (4) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Computer Science, or other related discipline.
Functional Requirements:	Reviews and analyzes available sequence data to generate the most complete and accurate reference sequence possible and to expand annotation associated with that sequence. Uses specialized databases, bioinformatics software, and literature reviews to curate highly annotated sequence records for model organisms. Reviews and updates database records. Corresponds with collaborators regarding missing or inaccurate information. Interacts with client's scientific staff to resolve questions regarding missing or inaccurate information. Uses manual and electronic methods to ensure quality control. Works independently in assigned work and reviews work for completeness and compliance with guidelines. Assists in problem resolutions and recommends enhancements to analytical, processing and statistical software. Tests software improvements to bioinformatics tools. Hands-on laboratory experience in sequence and bioinformatics research, analysis, design, development, testing, implementation of databases and/or software. Provides Management and supervisory experience from inception of task.

Bioinformatics Analyst II	
Minimum Experience:	Three (3) years
Minimum Education:	MS in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Reviews and analyzes available sequence data to generate the most complete and accurate reference sequence possible and to expand annotation associated with that sequence. Uses specialized databases, bioinformatics software, and literature reviews to curate highly annotated sequence records for model organisms. Reviews and updates database records. Corresponds with collaborators regarding missing or inaccurate information. . Uses manual and electronic methods to ensure quality control. Assists in problem resolutions and recommends enhancements to analytical, processing and statistical software. Tests software improvements to bioinformatics tools. Hands-on laboratory experience in sequence and bioinformatics research, analysis, design, development, testing, implementation of databases and/or software. Works with minimum supervision to perform assigned tasks and frequently reviews work products.

Bioinformatics Analyst III	
Minimum Experience:	Two (2) years
Minimum Education:	MS in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Reviews and analyzes available sequence data to generate the most complete and accurate reference sequence possible and to expand annotation associated with that sequence. Uses specialized databases, bioinformatics software, and literature reviews to curate highly annotated sequence records for model organisms. Reviews and updates database records. Corresponds with collaborators regarding missing or inaccurate information. . Uses manual and electronic methods to ensure quality control. Assists in problem resolutions and recommends enhancements to analytical, processing and statistical software. Tests software improvements to bioinformatics tools. Works with some supervision to perform assigned tasks.

Bioinformatics Analyst IV	
Minimum Experience:	Two (2) years
Minimum Education:	MS in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Reviews and analyzes available sequence data to generate the most complete and accurate reference sequence possible and to expand annotation associated with that sequence. Perform computational biology analysis. Uses specialized databases, bioinformatics software, and literature reviews to curate highly annotated sequence records for model organisms. Reviews and updates database records. Corresponds with collaborators regarding missing or inaccurate information. Uses manual and electronic methods to ensure quality control. Works with some supervision to perform assigned work and reviews work for compliance with guidelines. Experience in research, analysis, design, development, testing, and implementation of databases and/or software.

Bioinformatics Analyst V	
Minimum Experience:	One (1) year
Minimum Education:	MS in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Reviews and analyzes available sequence data to generate the most complete and accurate reference sequence possible and to expand annotation associated with that sequence. Perform computational biology analysis. Uses specialized databases, bioinformatics software, and literature reviews to curate highly annotated sequence records for model organisms. Reviews and updates database records. Corresponds with collaborators regarding missing or inaccurate information. Uses manual and electronic methods to ensure quality control. Experience in research, analysis, design, development, testing, and implementation of databases and/or software. Entry level position. Works with supervision to perform assigned work.

Scientific Data Analyst I	
Minimum Experience:	Two (2) years
Minimum Education:	MS in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Identifies and communicates errors or anomalies in the data to preclude the entry of invalid date. May enter journal name and issue, article title, and authors into sequence record in database to update its citation. Locates and photocopies journal articles from third-party release requests. Works independently under minimal supervision to perform assigned work and reviews work for compliance with guidelines. Experience, using data entry equipment and providing related services.

Scientific Data Analyst II	
Minimum Experience:	One (1) year
Minimum Education:	BS/BA in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, or other related discipline.
Functional Requirements:	Identifies and communicates errors or anomalies in the data to preclude the entry of invalid date. May enter journal name and issue, article title, and authors into sequence record in database to update its citation. Works independently under minimal supervision to perform assigned work and reviews work for compliance with guidelines. Experience, using data entry equipment and providing related services.

*Staff Analyst I	
Minimum Experience:	Five (5) years
Minimum Education:	MS in Life Sciences, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Interacts with client's scientific staff to resolve questions regarding missing or inaccurate information. Uses manual and electronic methods to ensure quality control. Works independently with little or no supervision.

*Staff Analyst II	
Minimum Experience:	Four (4) years
Minimum Education:	BS/BA in Life Sciences, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Uses manual and electronic methods to ensure quality control. Requires some supervision and review of tasks.

*Staff Analyst III	
Minimum Experience:	Two (2) years
Minimum Education:	BA/BS in Life Sciences, Chemistry, Physics, Computer Science, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Requires supervision of all tasks and final products.

*Staff Analyst IV	
Minimum Experience:	Zero (0) years
Minimum Education:	BS/BA in Life Sciences, Chemistry, Physics, Computer Science, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as directed and appropriate. Experience contributing to the analysis, design, development, testing, implementation, and documentation of systems and/or software. Entry level position requires management review of tasks.

Senior Scientist	
Minimum Experience:	Fifteen (15) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering or other related discipline.
Functional Requirements:	Provides expertise in specialized scientific research. Performs specialized computational analysis. Provides expert analysis and annotation of protein sequences. Conducts specialized genetic sequence analyses to generate complete and accurate reference sequences. Hands-on laboratory experience, knowledge of specialized field, and oral and written communication skills experience.

Scientist	
Minimum Experience:	Eight (8) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering or other related discipline.
Functional Requirements:	Provide expertise in specialized scientific research. Performs specialized computational analysis. Works as part of a team, interacting with engineers, scientists of other disciplines, business managers, and technicians. Hands-on laboratory experience and knowledge of specialized scientific field.

Technical Content Specialist I	
Minimum Experience:	Eight (8) years
Minimum Education:	MS in journalism, library science, or related field.
Functional Requirements:	Develop complex content for agency's public-facing outreach documentation for web interfaces and command-line tools and Application Programming Interfaces (APIs) to include how-to manuals, tutorials, demo pages, user guides, and quick-start guides. Translate technical or complex information into clear, direct, and concise documents appropriate for audiences with varying technical expertise. Research products and tools—their content, functioning, and enhancements—by interviewing internal subject matter experts, using the products, and accessing existing documentation. Monitor, research, and report trends and changes in electronic publishing, including advances in platform technology, dissemination, and archiving.

Technical Content Specialist II	
Minimum Experience:	Six (6) years
Minimum Education:	MS in journalism, library science, or related field.
Functional Requirements:	Develop complex content for agency's public-facing outreach documentation for web interfaces and command-line tools and Application Programming Interfaces (APIs) to include how-to manuals, tutorials, demo pages, user guides, and quick-start guides. Translate technical or complex information into clear, direct, and concise documents appropriate for audiences with varying technical expertise. Research products and tools—their content, functioning, and enhancements—by interviewing internal subject matter experts, using the products, and accessing existing documentation. Monitor, research, and report trends and changes in electronic publishing, including advances in platform technology, dissemination, and archiving.

Technical Content Specialist III	
Minimum Experience:	Zero (0) years
Minimum Education:	BA in journalism or related field.
Functional Requirements:	Develop complex content for agency's public-facing outreach documentation for web interfaces and command-line tools and Application Programming Interfaces (APIs) to include how-to manuals, tutorials, demo pages, user guides, and quick-start guides. Translate technical or complex information into clear, direct, and concise documents appropriate for audiences with varying technical expertise. Research products and tools—their content, functioning, and enhancements—by interviewing internal subject matter experts, using the products, and accessing existing documentation. Monitor, research, and report trends and changes in electronic publishing, including advances in platform technology, dissemination, and archiving.

Subject Matter Expert I	
Minimum Experience:	Twelve (12) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex to extremely complex systems in the subject matter area. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Makes recommendations and advises on organization-wide systems improvements, optimization or maintenance efforts. Provides creative/technical guidance for accomplishing assigned tasks and supervises project personnel. Industry, government or academic expertise in a general business area/analytical field. Works independently with little or no supervision.

Subject Matter Expert II	
Minimum Experience:	Ten (10) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex to extremely complex systems in the subject matter area. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Makes recommendations and advises on organization-wide systems improvements, optimization or maintenance efforts. Industry, government, or academic expertise in a general business/analytical field.

Subject Matter Expert III	
Minimum Experience:	Five (5) years
Minimum Education:	MS/MA Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex to extremely complex systems in the subject matter area. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Provides creative/technical guidance for accomplishing assigned tasks. Provides Industry, government, or academic expertise in a general business area/analytical field.

Subject Matter Expert IV	
Minimum Experience:	Two (2) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex systems in the subject matter area. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Industry, government, or academic expertise in a subject matter area. Works with some supervision.

Labor Category Descriptions

SINs 541611 & 611430

Substitutions Methodology:

- A Master’s Degree +5 years of experience equal a PhD.
- A Bachelor’s Degree +5 years of experience equal a Master’s Degree.
- An Associate’s Degree +6 years of experience equal a Bachelor’s Degree.
- Equivalent technical training and/or experience may be substituted for education using the relationship of one year of training and/or experience for each year of education, applicable to categories with *.

Program Executive	
Minimum Experience:	Fifteen (15) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides executive experience and guidance to an engagement and has technical or functional expertise/authority on major firm methodologies. Makes recommendations and advises on system improvements, optimizations or maintenance efforts. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line, and has organizational responsibility for client service delivery and performance.

Program Manager I	
Minimum Experience:	Ten (10) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides executive experience and guidance to an engagement including managing a team of individuals. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line, and has organizational responsibility for client service delivery and performance.

Program Manager II	
Minimum Experience:	Seven (7) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline
Functional Requirements:	Provides executive experience and guidance to an engagement. Experience leading large and complex engagements, client relationships, and/or work segments. Demonstrates expertise in a given market area or service line.

Project Manager I	
Minimum Experience:	Seven (7) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel. Provides creative/technical guidance for accomplishing assigned tasks. Assures that project personnel deliver the customer's desired technical solution within the mutually established contract schedule and cost. Experience in managing project performance from inception to deployment.

Project Manager II	
Minimum Experience:	Five (5) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel. Provides creative/technical guidance for accomplishing assigned tasks. Assures that project personnel deliver the customer's desired technical solution within the mutually established contract schedule and cost.

Project Manager III	
Minimum Experience:	Three (3) years
Minimum Education:	MS/MA in Life Sciences, Bioinformatics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Serves as the authorized interface with the client. Formulates and enforces work standards, assigns project personnel schedules & tasks, reviews work discrepancies, supervises project personnel.

*Program Assistant	
Minimum Experience:	Three (3) years
Minimum Education:	BA/BS
Functional Requirements:	Manages overall administrative support process for proposal preparation, progress reporting, meeting preparation, conferences and other events. Assist program/project manager in interaction with external customers and project members, tracking costs, monitoring budgets, placing purchase orders, collecting invoices, managing workshops, meetings, travel, and event logistics as required. Manages overall communications and reporting processes. Acts on behalf of program/ project manager as assigned. Work experience in industry, government, or academic organization.

*Administrative Assistant**	
Minimum Experience:	Zero (0) years
Minimum Education:	BS/BA
Functional Requirements:	Schedules appointments, gives information to callers, tracks correspondence and documents, files, and provides word processing support, telephone coverage, copying, data entry and general office assistance. Aid managers in the completion of meetings, conferences and other events.

*Staff Analyst I	
Minimum Experience:	Five (5) years
Minimum Education:	MS in Life Sciences, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Interacts with client's scientific staff to resolve questions regarding missing or inaccurate information. Uses manual and electronic methods to ensure quality control. Works independently with little or no supervision.

*Staff Analyst II	
Minimum Experience:	Four (4) years
Minimum Education:	BS/BA in Life Sciences, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Uses manual and electronic methods to ensure quality control. Requires some supervision and review of tasks.

*Staff Analyst III	
Minimum Experience:	Two (2) years
Minimum Education:	BA/BS in Life Sciences, Chemistry, Physics, Computer Science, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as appropriate and can formulate solutions to defined/specific business or technical issues. Experience contributing to the analysis, design, development, testing, and implementation of systems and/or software. Requires supervision of all tasks and final products.

*Staff Analyst IV	
Minimum Experience:	Zero (0) years
Minimum Education:	BS/BA in Life Sciences, Chemistry, Physics, Computer Science, Business or other related discipline.
Functional Requirements:	Assists with specific work activities as directed and appropriate. Experience contributing to the analysis, design, development, testing, implementation, and documentation of systems and/or software. Entry level position requires management review of tasks.

Technical Content Specialist I	
Minimum Experience:	Eight (8) years
Minimum Education:	MS in journalism, library science, or related field.
Functional Requirements:	Develop complex content for agency's public-facing outreach documentation for web interfaces and command-line tools and Application Programming Interfaces (APIs) to include how-to manuals, tutorials, demo pages, user guides, and quick-start guides. Translate technical or complex information into clear, direct, and concise documents appropriate for audiences with varying technical expertise. Research products and tools—their content, functioning, and enhancements—by interviewing internal subject matter experts, using the products, and accessing existing documentation. Monitor, research, and report trends and changes in electronic publishing, including advances in platform technology, dissemination, and archiving.

Technical Content Specialist II	
Minimum Experience:	Six (6) years
Minimum Education:	MS in journalism, library science, or related field.
Functional Requirements:	Develop complex content for agency's public-facing outreach documentation for web interfaces and command-line tools and Application Programming Interfaces (APIs) to include how-to manuals, tutorials, demo pages, user guides, and quick-start guides. Translate technical or complex information into clear, direct, and concise documents appropriate for audiences with varying technical expertise. Research products and tools—their content, functioning, and enhancements—by interviewing internal subject matter experts, using the products, and accessing existing documentation. Monitor, research, and report trends and changes in electronic publishing, including advances in platform technology, dissemination, and archiving.

Technical Content Specialist III

Subject Matter Expert I	
Minimum Experience:	Twelve (12) years
Minimum Education:	PhD in Life Sciences, Bioinformatics, Chemistry, Physics, Computer Science, Engineering, Business or other related discipline.
Functional Requirements:	Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex to extremely complex systems in the subject matter area. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Makes recommendations and advises on organization-wide systems improvements, optimization or maintenance efforts. Provides creative/technical guidance for accomplishing assigned tasks and supervises project personnel. Industry, government or academic expertise in a general business area/analytical field. Works independently with little or no supervision.

Service Contract Labor Standards (SCLS) Matrix

SCLS Eligible Contract Labor Category	SCLS Equivalent Code and Title	WD Number
Administrative Assistant	01311 – Secretary I	2015-4281 Rev. 21 (12/27/2021)

The Service Contract Labor Standards (SCLS), formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
